

# CaptureSpace

OR

# TechSmith Relay

Both products are excellent at capturing video and are available for you to use for free. The videos end up in the same video storage space so which you choose is a matter of taste and function. If you try one and don't like it try the other.

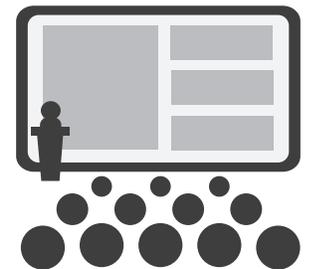

## Capture Location

in  
**Home or Office**  
any combination

on your computer

in  
**Classrooms**  
Lecture Capture
